## Accessibility Plan

**Seahaven Academy**

The best in everyone™

Part of United Learning

# 1. Introduction

This policy should be read in conjunction with the school's wider documentation, such as:

- SEND Policy
- Supporting Students with a Medical Policy
- Health and Safety Policy
- Equality and Diversity Policy
- Behaviour Policy

We are community Secondary School for students between 11 years to 16 years. The school site comprises one large four-storey building, with a small car park, large playground, several small enclosed areas, and two large playing fields.

Seahaven aims to:

- embrace a partnership between the school and home
- encourage students, staff and parents to have limitless ambition
- provide an excellent education to all our students, underpinned by a culture of high expectations and standards in all we do
- be a highly inclusive school that caters for the needs of all students' academic, personal, and social development
- bring out the best in everyone

## 2. Aims

Schools are required under the *Equality Act 2010* to have an Accessibility Plan. The purpose of the plan is to:

- Increase the extent to which disabled pupils can participate in the curriculum
- Improve the physical environment of the school to enable disabled pupils to take better advantage of education, benefits, facilities and services provided
- Improve the availability of accessible information to disabled pupils

Seahaven Academy aims to treat all its pupils equally and with respect. Providing access and opportunities for all pupils without discrimination of any kind is paramount in being an inclusive school. We are committed to providing an environment that enables full curriculum access and values all pupils, staff, parents and visitors regardless of their education, physical, sensory, social, spiritual, emotional, and cultural needs. Seahaven's three values are Kindness, Confidence and Ambition and we seek to intertwine these values with not only our curriculum but also our school site, the way we deal with all stakeholders, and the day-to-day operation of the school.

Training of staff is a crucial step in reducing any discrimination, therefore our school regularly trains all staff and governors on equality issues, including the *Equality Act 2010*.

Seahaven's Complaints Policy (available on the school website) covers the accessibility plan. If you have any concerns relating to accessibility in school, the Complaints Policy sets out the process for raising these concerns.

## 2. Legislation and guidance

This document meets the requirements of [schedule 10 of the Equality Act 2010](#) and the Department for Education (DfE) [guidance for schools on the Equality Act 2010](#). This plan complies with Section 69 (2) of the *Children and Families Act 2014* Regulation 51 and also schedule 1 of the *Special Educational Needs and Disability Regulations 2014*.

The Equality Act 2010 defines an individual as disabled if they have a physical or mental impairment that has a 'substantial' and 'long-term' adverse effect on their ability to undertake normal day to day activities.

Under the [Special Educational Needs and Disability \(SEND\) Code of Practice](#), 'long-term' is defined as 'a year or more' and 'substantial' is defined as 'more than minor or trivial'. The definition includes sensory impairments such as those affecting sight or hearing, and long-term health conditions such as asthma, diabetes, epilepsy and cancer.

Schools are required to make 'reasonable adjustments' for pupils with disabilities under *the Equality Act 2010*, to alleviate any substantial disadvantage that a disabled pupil faces in comparison with non-disabled pupils. This can include, for example, the provision of auxiliary aid or adjustments to premises.

We define equality in line with the *Equality Act 2010* and recognise the following protected characteristics:

- age
- disability
- gender reassignment
- marriage and civil partnership
- pregnancy and maternity
- race
- religion or belief
- sex
- sexual orientation.

We take all advice, guidance and support needed to ensure we meet the needs of children and adults with disabilities, for example from healthcare professionals.

## 3. Action plan

The Accessibility Plan shows how access can be improved for disabled pupils, staff and visitors to the school in a given timeframe and anticipating the need to make reasonable adjustments to accommodate their needs where practicable.

It may not be feasible to undertake all of the works during the life of the Accessibility Action Plan and therefore some items will roll forward into subsequent plans.

An accessibility audit will be completed by the school towards the end of each period covering the plan and will be used to inform to actions of any subsequent plans.

The 3 areas considered in this plan are:

a) **Improving Education and related activities** - Seahaven will continue to seek and follow the advice of appropriate specialists. The school's SENCo, in conjunction with class teachers, has the day-to-day responsibility for monitoring the progress and attainment of pupils with disabilities, and ensuring reasonable adjustments are made to enable them to access the curriculum and wider school activities, such as trips and extra-curricular clubs. Staff will be provided with appropriate CPD to enable them to devise a curriculum which seeks to remove potential barriers to learning and addresses the needs of all pupils. The curriculum will also include opportunities to raise awareness of disability in order to promote understanding.

b) **Improving the physical environment of the school for the purpose of increasing the extent to which disabled pupils are able to take advantage of education and benefits, facilities or services provided or offered by the school** - Seahaven will take account of the needs of pupils and visitors with physical difficulties and sensory impairments when planning and undertaking future improvements and refurbishments of the site and premises, such as improved access, lighting, acoustic treatment, and colour schemes, and more accessible fixtures and fittings.

c) **Improving the provision of information** - Seahaven will make itself aware of local services, including those provided through the Local Authority, for providing information in alternative formats when required or requested.

Seahaven has set the following priorities for the development of the vision and values that inform the plan:

- Improving access into and around the school site for students, staff, parents and visitors with disabilities.
- Improving the school site and environment to assist users with disabilities in accessing facilities safely.
- Ensuring that the resources made available to students with disabilities (and staff) are relevant, practical and effective.
- Ensuring the school considers the extent to which students with disabilities can participate in the school's curriculum
