

Live lesson protocols for students

A before, during and after guide.

Before the lesson

- Arrive five minutes prior to start of the lesson
- Login using your school account.
- Be equipped with pen and paper and any materials directed by your teacher.
- Ensure the device you are using is charged/plugged in.
- Remove distractions e.g. mobile phones, close all other tabs, set yourself up in a quiet space.
- If you can, use headphones to listen to the lesson.

During the lesson

- Fully participate in the lesson; no music, tv, games or other activities whilst lessons take place.
- Use the same appropriate/subject/learning language as if you were in your classroom speaking to your teacher.
- Behave with the same high expectations as in classroom lessons, always acting responsibly and with respect.
- Type questions about the work into the question box – personal or whole class responses will be made.
- Be as accurate as possible when asking questions. Simply saying ‘I don’t get it’ will not help the teacher explain the aspect being asked about.
- Make sure you understand the follow-up tasks.

After the lesson

- Complete and submit all work as instructed by your teacher.
- If you were unable to attend the live lesson, you must watch the recording and email your teacher to let them know you have done this.
